III. Procedure

A. Learning Activities

Teacher's Activity	Student's Activity
Good morning, class!	
	Good morning, Teacher Krizsha!
How is everyone today?	
	Fine, Teacher Krizsha!
That's great to hear. Before we start, let us say a	

short prayer. *[leads a simple prayer]* Amen. Thank you, class. Now, let's check attendance. *[calls each student's name while they respond "Present!"]* Very good! Today, we have a fun activity with words, but before that, let's remember our classroom rules. Can anyone tell me some rules we should follow?	
	Listen when the teacher is talking. Raise our hand before speaking. Respect our classmates.
Wow! Very good it seems that you are all now ready for our new lesson today!	
	Yes, Teacher!

B. Motivation

Instructions:
The class will be divided into four groups. Each group will be given word cards. On the board, and there is two boxes labeled SAME and OPPOSITE. The groups will work together to decide where each word card belongs by placing words with the same meaning in the SAME box and words with opposite meanings in the OPPOSITE box. After sorting, each group will explain their answers.

The words
Same Meaning: big – large, happy – glad, fast – quick
Opposite Meaning: hot – cold, day – night, up – down

C. Presentation We are going to learn something fun about words. Have you ever heard the words synonym or	

antonym?	
	(Mostly shake heads or “No, Teacher”)
That’s okay! We will learn together. Let’s start with an example. I have the word happy. Can someone tell me another word that also means happy?	
	Joyful?
Yes! Joyful is another word that means the same as happy. We call these words synonyms. A synonym is a word that has the same meaning as another word.	
	Yes! Joyful is another word
Now, let’s think of a word that means the opposite of happy. Can anyone guess?	
Exactly! Sad is the opposite of happy. Words that mean the opposite are called antonyms.	
	Sad!
So remember, synonyms mean the same, and antonyms mean the opposite.	
D. Discussion	
Let’s practice together. I will give you a word, and you will try to say a word that is the same and a word that is the opposite.	
The word is **fast**. What word means the same as fast?	
	Quick!
Very good! Now, what word is the opposite of fast?	
	Slow!
Excellent! You are getting it!	

E. Analysis Now that we know what synonyms and antonyms are, let's use them in sentences. I have a picture of a **happy child**. Look at this child. Can anyone describe the child using a word that means the same as happy?	
Excellent! That is a **synonym**. Can anyone think of a word that is the opposite of happy?	Joyful!
Perfect! That is an **antonym**. Let's try another one. What is the opposite of fast?	Sad!
  Great! Now, let's make sentences using these words. For example: "The happy child is playing in the park" or "The child is joyful because it is sunny today." You can also act out or use gestures for your words. If I say **fast**, show me how fast something	Slow!

can move. If I say **cold**, pretend to shiver. This way, we will **remember the words better** and have fun at the same time!	
F. Generalization So, class, what have we learned today? Exactly! Using the right synonyms and antonyms helps others understand our sentences better.	Synonyms are words that mean the same. Antonyms are words that mean the opposite.

IV. Application

Group Activity

The class will be divided into four groups, and each group will get one word. Group 1 and Group 3 will work on finding words that mean the same as their word (synonyms), while Group 2 and Group 4 will work on words that mean the opposite (antonyms). After finishing, each group will share their words with the class.

Words for the Activity
Group 1 (Synonyms): Happy
Group 2 (Antonyms): Big
Group 3 (Synonyms): Fast
Group 4 (Antonyms): Cold

V. Evaluation

Construct Simple Sentences Using Synonyms and Antonyms

Write a simple sentence for each word below.

For #1–3, use a synonym (a word that means the same).

For #4–5, use an antonym (a word that means the opposite).

The 5 items

Part A: Synonyms

1. Happy → (write a sentence using another word that means happy)
